

Advanced Technologies for Stabilization of ^{238}Pu -Contaminated Combustible Waste

99-BRE-5/1

└ Contact

Ellen A. Stallings

Project Leader

Los Alamos National
Laboratory

(505) 667-2236

└ Operations

Kevin Ramsey, NMT-9

└ Purpose

- Treatment of ^{238}Pu contaminated combustible waste

└ Approach

- Integrated treatment system combining size reduction, molten salt oxidation, salt recycling and aqueous recovery of ^{238}Pu

└ Benefits

- TRU waste volume reduction
- ^{238}Pu recovery
